

System Parts

Disclaimer: This document only includes the bare-minimum hardware components

Raspberry Pi AI Kit – (The primary GPU/NPU for 30+ FPS 640x640 real-time object detection)

Raspberry Pi 5 – (Host SBC executing application logic, I/O routing, and model post-processing)

Logitech Brio 100 – (USB camera providing the 1080p video feed for real-time inference)

Logitech S150 USB Speakers – (Audio output device for real-time auditory alerts)

Raspberry Pi 5 USB-C Power Supply 27 W – (Provides 5.1V/5A power to sustain full compute load and connected peripherals)

Raspberry Pi 5 Active Cooler – (Active thermal management preventing CPU throttling under sustained load)

SanDisk Extreme Pro 64GB MicroSDXC – (High-speed storage hosting the operating system, code, and model weights)

Raspberry Pi 5 Metal Enclosure – (Protective enclosure accommodating the Pi 5, active cooler, and PCIe Hardware Attached on Top (HAT) stack)

System Part	Price
Raspberry Pi AI Kit	660 AED
Raspberry Pi 5	620 AED
Logitech Brio 100	125 AED
Logitech S150 USB Speakers	80 AED
Raspberry Pi 5 USB-C Power Supply	85 AED
Raspberry Pi 5 Active Cooler	65 AED
SanDisk Extreme Pro 64GB MicroSDXC	120 AED
Raspberry Pi 5 Metal Enclosure	90 AED
Total	1,845 AED
